Cons Related Online Video editing Training

Technical Difficulties

Online courses can provides difficulties like software glitches, slow internet speed, voice issue, etc. These problems can cause disturbance in learning.

Lack of Hands-On Experience

In online classes everything is covered like theoretical part, technical part, hand on hand training. But after all of this it cant be take to the place of offline personal touch training.

Difficulty Staying Focused

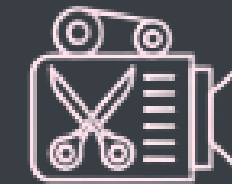

In online classes it is so much difficult to focus because of the again and again created temporary issues like slow internet etc.

Potential for Higher Costs

Some of the institutes demands higher fees for some courses for remote students. But in offline mode the fees for the same course is lesser.

Lack of Real-Time Interaction

Online courses may lead to less interaction with other students and teachers. This the reason the online students can not socialized with many people of there fields.
